## ORE CHANNEL IS **CUT IN UNCLE SAM**

Long-Sought Riches Cut on 500 Level, East of Dyke.

TINTIC SHIPMENTS

NEW NAMES IN THE LIST AGAIN THIS WEEK.

Developments in the Uncle Sam Consolidated company's property at Tintle during the last four or five days have

terday which sent the stock of the company scaring.

Treasurer James Chipman, who has assumed the management of the mine during the absence of John Dern in Europe, stated yesterday afternoon that connections had finally been made with the main ore-bearing channel on the east side of the porphyry dyke. The ore is even of better grade than where it has been opened below the 200-foot level, and streaks are fetund making through the mass that assay 160 ounces silver per ton in addition to a nice percentage of lead.

"After cutting through the porphyry dyke on the 500 level," said Mr. Chipman, "some little drifting resulted in a bunch of ore being found. After passing through that the drift was continued to a point directly beneath where the ore existed at the lowest point reached from the 350 level. There was no ore there and a raise was made to connect with the shoot that had been followed down in steps for about eighty feet from the 250 level. Here, of caurse, the ore was found again and a little study disclosed the fact that the shoot, before reaching the 550 level, had turned and was dippling why Utah Con. is Strong.

(Special to The Herald.)

(A manufer rests with President U. H. Boatton, who represents H. H. Rogers and which the proposition of the Special to The Herald.)

(A manufer rests with President U. H. Boatton, who represents H. H. Rogers and the same shoot opened above. That is where we are entitled to do in this side of the same shoot opened above. We have not take out much of the ore shipped property. The was close around the way the price should be a search and as a search and same property. The was close around the same search and same property. The same property. The same property. The same property. The bulk of the demand for care. The output would have been even larger only for the

#### MONTANA'S MANAGER HERE.

#### His Mine in Fine Trim-Says Good Things of Lone Mountain.

Things of Lone Mountain.

John A. Kirby, general manager of the Montana-Tonopah company's mines at Tonopah, Nev., came in from the west yesterday morning to remain three or foar days on business for his company. Mr. Kirby came through from San Francisco, where business had called him from camp, so he was not familiar with what had been happening at camp during the last four or five days.

Mr. Kirby stated, however, that the Montana-Tonopah was looking fine and improving all the time. Regarding his recent visits to Lone Mountain and the good reports he was credited with having made concerning that district, Mr. Kirby stated that it was one of the best sections for the investment of capital of which he was the was th

or the investment of capital of which he

for the investment of capital of which he knew.

"It is not to be expected that all prospects there will make mines," said Mr. Kirby, "but I believe that several big producers will be credited to the district just as soon as it is possible to get capital sufficiently interested that developments can be carried out on a scale commesurate with the merits of the properties. I consider the Anaconda-Tonopah property, J. W. Langley's promotion, a most promising prospect. Good ore bodies are being developed and one of these days, after the mine has been properly opened, you will hear from it, sure."

Mr. Kirby said that he would like to remain over and spend Thanksgiving at home, but his business was such that he was afraid that he could not do so.

EXAMINED THE ALPINE.

#### Local Expert Says the O'Meara-Lynch

Mine Is a Big One. Will G. Nebeker, the well-known min-ing expert, has returned from a week's trip to Tonopah and Lone Mountain, Nev. He went from here specially to make an examination of the Nevada-

Nev. He went from here specially to make an examination of the Nevada-Alpine property, presumably in the interests of some of the smelters, but on that question he was silent.

"I will say, however, that the property is one of the cleanest-cut, high-grade shipping propositions' I ever saw," declared Mr. Nebeker. "There is developed from two to four feet of ore in a ledge so strong and regular that there is no room for waste, that will average from \$125\$ to \$140\$ per ton, net, after paying the outrageously high transportation rates from mine to smelter. Several thousand tons of this ore are already blocked out, and there is every evidence of the ore's improvement, as the fissure is being followed down at an easy dip in the direction of the big contact ledge that crops farther up the mountain, and which, apparently, dips toward the fissure. To reach the contact the fissure will have to be followed down for 400 or 500 feet yet, and I feet certain that as the contact is approached a tremendous body of rich ore will be encountered. This ore is of a class that makes it very desirable by the smelters for use in fluxing the Utah Stocks in Boston.

FROM ARIZONA CAMPS.

Alex Colbath Says Mining Ground Is Held at High Prices.

Alex Colbath, jr., has returned from a two weeks' trip into Arizona, where he has been studying conditions in some of the copper camps, and where he was called to make an examination of property in the interests of some eastern people whose representative here sent him down.

Mr. Colbath reports that there is all kinds of activity in the vicinity of Bisbee and Jerome, but the height to which Arizona copper stocks have soared during the last year or so has made claim-owners so "chensty," on the whole, that it is next to impossible to get hold of claims having any real merit on anything like reasonable terms or fair prices.

He saw u great deal of country that looked good to him and returned impressed with the greatness of some of the big mines of that region.

STILL TALKING CONSOLIDATION.

Prominent Smelter Attorney Said to Be Working on Papers. (Special to The Heraid.)

been such as practically to remove all doubt as to the future productiveness of the new territory east of the porphyry dyke. It is this development and the news concerning it that crept out yesterday which sent the stock of the company soaring.

Treasurer James Chipman, who has assumed the management of the mine during the absence of John Dern in Europe, stated yesterday afternoon that connections had finally been made with the main ore-bearing channel on the 500-foot level below the tunnel on the sat side.

LONDON EAGER FOR COPPER.

About 2,550 Tons of the Metal Was Snapped Up Yesterday.

London, Nov. 24.—There was further eager buying in the copper market today, which was attributed to advices from New York. About 2.59 tons of the metal were sold. Copper closed firm at 764. Why Utah Con. Is Strong.

Silver moved up another peg yesterday to 64%c per ounce. W. W. Rives leaves for Pioche on min-ing business tonight. He expects to be absent several days. Two cars of ore from Bingham, two from Alta, one from Tintic and one from Nevada were reported at the Pioneer sampler yesterday morning.

The Taylor & Brunton sampler yes-terday reported the receipt of five cars of ore from Tintic, one from Bingham, one from Modena and three from Idaho. Boston papers state that North Butte s producing copper at less than 64 cents ber pound. The October earnings of the company are given at better than 229,

The Mammoth Mining company settled for three lots of ore yesterday, the controls of which showed the presence of 17.2 per cent copper, in addition to the usual values in gold and silver. Manager P. D. Delmas, of the Gold Quartz company's Bullion district, Ne-vada, mines, has returned from a sev-eral weeks' business trip to Cleveland, O. He expects to make a trip to the properties within the next few days, Louis S. Cates, manager of the Boston Consolidated company's mines, returned from a trip to Arizona by way of California yesterday morning. It is understood he has been making an examination of a copper property that and been previously commended to Samuel Newhouse.

Newhouse.

Judge W. H. Dickson and A. C. Ellis.
ir., who have been at Tonopah for the
last two weeks or more defending the
last two weeks or more defending the
action brought against E. A. Montgomery for a "grub-stake" interest in the
famous Montgomery-Shoshoe mines in
the Bullirog district, are at home again.
The case was argued and submitted before they left camp, but up to last evening there was no word that a decision
had been rendered.

The troubles which the Big Grande

had been rendered.

The troubles which the Rio Grande company is having with its locomotives on the Copper Belt road at Bingham are such that the shippers over that line are beginning to make a strenuous kick. Where it takes three engines to meet the demands of the companies patronizing it, the company has been unable to keep more than one going regularly for several days past. This condition threatens a close-down of the Utah Copper and Ohio mills, and the Yampa smelter as well. The company promises to have things running smoothly within a few dars.

Gardner Daily Store News.

the state of the s

Nothing nicer for the Little Boys from 21/2 to 8 years of age than these natty medium length Coats,

So becomingly adapted to the requirements of those ages. They come in Plain Blues, Oxford Grays and dark Fancy Mixtures of Overcoatings that are designed for wear as well as looks.

Some have the Buster Brown Belts and some are made with the belted back.

They are all exceptional values. Besides the \$3, \$3.50 and \$4 lines, we have the same styles in more expensive grades as well as many becoming shapes for the larger Boys.

Winter Suits, Winter Caps, Gloves, Sweaters and Under-

#### SMALL BANDS OF REBS

Reported Insurrections in Cuba Do Not Appear to Be Very Formidable.

Havana, Nov. 24.-It is persistently reported from San Juan De Martinez, province of Pinar Del Rio, that Congressman Pino Guerra, who is charged by the prosecuting judge of San Juan De Martinez with being the leader of the insurrection plot in that vicinity, and who is evading capture, now has a following of over fifty men, and it is said that other friends of the congressary army, have similar followings.
General Rodriguez, commander of the rural guards, informed the Associated Press that there is absolutely nothing confirmatory in these rumors, and showed the correspondent the replies received by telegraphic inquiries made to the commanding officers in Pinar eDI Rio, all of whom denied that anything had occurred beyond what already had been reported, and stated that the country between San Juan De Martinez and Guanes, where the insurgents are reported to be, is all open, consisting of tobacco fields.

All the officers of the rural guards ary army, have similar followings.

All the officers of the rural guards discredit the report that Congressman Guerra has any considerable following. In the entire province of Pinar Del Rio there are at present about 400 rural

guards Colonel Piedra, who is wanted in Havana in connection with the arms at Cerro, a suburb of Havana, is reported to have gathered together a band of twenty insurrectionary comrades near Fatabano.

#### SLIGHT DISCREPANCY.

Hitch in the Ratifications of the Peace Treaty. St. Petersburg, Nov. 24.—The hitch in

the exchange of the final ratifications of the peace treaty is explained here as being due to an omission of three words in the French and English texts and a slight discrepancy in the transla-tion of a phrase in one of the articles. Russia does not regard the matter as

#### OUT OF DATE WARSHIPS.

Oregon Hereafter Will Be Used i Home Waters.

Washington, Nov. 24 .- As soon as the historic battleship Oregon, now under orders to return home from the Asiatic station, reaches American waters she station, reaches American waters she will be sent to a government navy yard and placed out of commission for a thorough overhauling. When recommissioned she will be placed in the second line of defense, use being found for her in home waters. The out-of-date battleship Massachusetts, now at the New York navy yard, will be put out of commission. Her place will be taken by the battleship Indiana, now comby the battleship Indiana, now com-pleting repairs.

What ship will take the place of the Oregon on the Asiatic station has not been decided.

#### The Most Reliable, Quickest and Safest Ever Perfected.

MY Skill has no equal in the cure of Pelvic and private diseases of men, because I have advanced with the rapid upward march of medical science, and made a specialty of the diseases I treat. My modern methods are every day proving that they are positively the safest, quickest and most reliable that have ever been perfected for curing for curing BLOOD POISON, SKIN DISEASES, SORES, ULCERS, STRICTURE, VARICOCELE, NERVOUS DECLINE, PILES, FISTULA, RUPTURE, HYDROCELE and DISEASES of the KIDNEYS and PROSTATE.

PROSTATE.

There is absolutely no patchwork about the results of the course of treatment I give for each of the diseases I make a specialty, for soon after beginning my treatment every symptom of disease disappears and the trouble never returns.

sease disappears and the trouble never returns, IMPORTANT—I will cure you for less money than you can be treated for by any other specialist in Salt Lake. You will have to come to me sooner or later in order to be properly cured: why not before you have lost your money in doctoring with cheap, or dishonest, unskilled specialists?

CURE OR NO CHARGE—My patients receive a written contract, guaranteed by a deposit of \$500.00 in the bank, to cure and reader entire satisfaction or refund money.

CONSULTATION FREE, CONFIDENTIAL and INVITED—A personal, thorough and searching examination is required, though if inconvenient to call, write me for information. Office hours: \$ a. m. to \$ p. m., excepting Sundays, from \$ to 12:39. Address or call
